

## PSU-2448mk2 Kit

NEW DESIGN! NOW AVAILABLE!

The PSU-2448mk2 Kit delivers an adjustable, regulated, up to 24-0-24 Volts, and +48Volts when used with our 1u PWR-TRAFO kit.

Each voltage in the power supply kit (+, -, +48V) can be fine-tuned using the (3) PCB-mounted trim potentiometers. Low-profile, Snap-in capacitors are used for the large value capacitors to save on space and make the PSU kit fit on a 1u low-profile rack.

High quality components like Vishay trimmers, Panasonic, Nichicon caps are used. The PCB is double-sided with top silkscreen and plated through holes. On-board LED indicator lamps for a quick visual reminder if the board is powered up. All power rails are protected by fuses for additional short-circuit protection.

Note: Power Transformer not included.

### Features:

- Small size, space saving design
- All voltages adjustable and can be finely tuned
- Using Low-profile, snap-in capacitors for large value caps
- Using high quality trimmer potentiometer
- Three (3) on-board LED lamps
- Three (3) on-board Fuse protection
- Includes (3) heatsinks
- Easy to assemble, easy to troubleshoot design
